Dear Mr. Kosel:

Subject: Comments on Additional Soil and Groundwater Investigation Work Plan  
File: Unocal #5105, 1950 Guerneville Road, Santa Rosa, Case No. 1TSR063

Regional Board staff has reviewed the December 14, 2004 Additional Soil and Groundwater Investigation Work Plan prepared by TRC for 1950 Guerneville Road in Santa Rosa. The proposed scope of work is acceptable with the conditions that soil samples are preserved using EPA Method 5035 and groundwater samples are analyzed using EPA Method 8260 full scan. The analytical schedule may be reduced in the future based on the results.

By copy of this letter, I have notified Sonoma County Environmental Health Services of our concurrence to enable the processing of well installation permits. Please notify me in advance of fieldwork so I can schedule a site inspection at that time.

If you have any questions I can be reached at (707) 576-2675.

Sincerely,

Joan Fleck  
Engineering Geologist
